Soviet Works Understanding Lenin and Leon Trotsky

By Istabal Mesravan, Lean Gorbechov and Lean Kruschev

I. Marx is first Understood in Teaching Ways

A type of Marxist historian which then is also called Marxist and analysis is about economics and anthropology and perhaps militant and this becomes also First International type arguments.

II. Marx then Understood by Us

Marx is a science and scientific Marxism, it is about scientific approaches to the Marxist studious person which is then collated and organised in mode of production debates and such technical arguments and vocabulary to be practiced daily as daily habit.

III. Marxist Approaches to Journalism Added

Journalism is seen by the world as bourgeois media and it follows ideological reality. We bet the news is about real objective truth and facts and a fact is a fact.

IV. Lenin

Lenin is a Soviet formalism.

V. Trotsky

Trotsky and Trotskyists are stylish and liberal and experimental.

VI. Now Collate the Two, Three Together – Against Heidegger

It is the same as this militant reading of Heidegger, but it is more materialist to be like this Marxist, Marxist-Leninist and Trotskyist.
